Dear Adrian.

Thank you very much for your kind letter of 27 September.

I am sorry I missed you on Thursday, but I was at a conference all day. As it happened, I found myself seated next to a German professor at dinner, who said he had made a study of the history of German boards and had written a learned work on the subject. I have written to him to remind him of his promise to send me a copy. It will I think contain the information you need, provided you can cope with the German! His name is Dr Dr Klaus J Hopt.

With kindest regards.

*Yours Ever
Jimakin*
