Dear Adrian

Congratulations on the report. I know that an immense amount of personal effort has gone into it & I think that it is very good of you to have been willing to carry out the task.

That makes me very pleased in the general acceptance of the main thrust of the report. At a time when the media starts to angrily & bitterly feed at every passing shadow, this is no mean achievement on your part - at given the odds the best possible start. I am sorry that the CBI has not been more helpful but I feel that they too are suffering the re-acton to hard times affecting their members.

So you have launched successfully against a sea of troubles that I am afraid shows little signs of abatement in the near future.

Thank goodness Cadbury Schweppes rests  
on people still having to "eat and drink".

The enclosed may amuse you it  
is the final page of an addition to a little  
book done for the grand children!

Very best wishes, hope to  
see you next week

J —  
Arnold

---

Once again many many sincere  
congratulations.
